

# Cyber Entities (an Initiative by) Scholastic Seed Inc.

It talks about the entities who are serving the world with their innovations in the field of cyber and upcoming technologies. The purpose behind creating this head is to give the readers a glimpse about the corporate houses and conglomerates which are working in the cyber related directions. Apart from this it enables the companies to generate employment and facilitates the corporate world to reach to the unreachable.

We know that Cyber security is the hottest area of IT spending in present scenario. That's why so many vendors have entered this lucrative \$100 billion market which supposes to be groomed day-by-day. The purpose behind creating cyber entity is to prepare the reader familiar with the Cyber world functioning. This is a new initiative by CYBERNOMICS and powered by Scholastic Seed Inc., New Delhi India. These Cyber security entities or IT security consulting firms manage IT security services such as firewalls, intrusion prevention, security threat analysis, proactive security vulnerability and penetration testing and incident preparation and response, which includes IT forensics

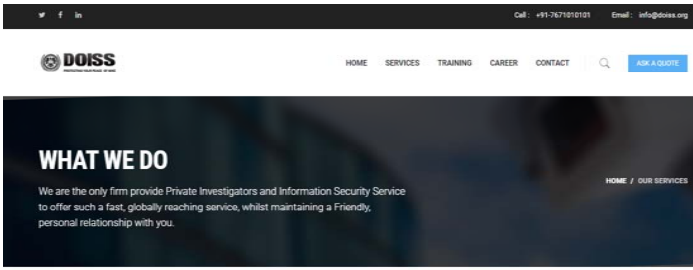

**RojgarVikas**

By this digital platform our motive is to provide an interface between employer and hard-working quality manpower available in villages that are looking for employment in cities but they don't have idea how to approach the employer. This is a platform through which each and every jobseeker can register with it and can get information related to available jobs. Here some leading hiring agencies will keep on posting about latest jobs opportunities with their client. We verify each and every job before getting activated on our portal just to avoid engagement of job seekers with fake jobs.
